## Summary

Hello! I am a recent graduate excited to start my career in Data Analytics. Looking for an entry-level position/internship in data analytics or a similar opportunity. To further my understanding in the field, I am enrolled in a Masters program with University of Colorado Boulder.

## Education

August 2019 - May 2023

**Louisiana State University, Baton Rouge**

*Bachelor of Science, Physics with Secondary Discipline (Data Science)*

## Experience

August 2023 - Present

**Mustang Vending, Vending Machine Stocker** - *Lafayette*

Assisting Mr. Richard with his vending business. Communicating with customers to decide vendibles. Follow procedure to troubleshoot and stock machines.

June 2021 - May 2022

**LSU LIGO, Physics Research Assistant** - *Baton Rouge*

Worked with Dr. Gonzalez to create excel spreadsheets recording past LIGO sessions Performed excel operations for organization and practiced processing and cleaning data.

October 2019 - June 2021

**LSU PLFR, Physics Research Assistant** - *Baton Rouge*

Learned about Dr. Kutter's research on detecting and observing neutrinos. Practiced measurement procedures while testing resistors. Obtained familiarity with data collection and data visualization.

**Skills** - Spreadsheets, R, SQL, Tableau, Python, Tensorflow

- Practiced Data cleaning, Data organization, Data analysis, Data visualization

**Certificates** - Enrolled in Data Science Foundations: Data Structures and Algorithms

- Google Data Analytics Professional Certificate
